# Contents

- HTML5 Overview
  - New Markups in HTML5
  - New APIs in HTML5
- HTML5 feature supported in Tizen Web Platform
  - Compatibility with HTML5TEST.COM
  - Advanced HTML5 features
- Upcoming HTML5 features for Tizen Web Platform
  - Compatibility with HTML5TEST.COM
  - Compatibility with Ringmark test suites
  - Web Intents
  - Other Features

# HTML5 Overview

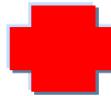

# HTML5 Overview

- HTML5 in the narrow sense
  - The specification titled “HTML5” - HTML & XHTML !
- HTML5 in the wider sense - “Open Web Platform”
  - The HTML5 language as framework
  - CSS2/CSS3, SVG, MathML
  - Additional specialized technologies
    - Storage, threads, fonts, geolocation, ...
- Goal of HTML5 and Open Web Platform
  - Same quality as native applications, but more portable
  - Can run without installation: always latest version
  - Same technology for many different platforms/devices: desktop, mobile, television...
  - The most interoperable platform in the industry

# New APIs in HTML5

## Legend

 Not supported API

- Graphics
  - 2D Canvas API, Timing control for script-based animations API
- Multimedia
  - getUserMedia API, **WebRTC API**, **Web Audio API**
- User interactions
  - Touch Event API, Vibration, Web Notifications
- Data Storage
  - Web Storage, File Reader API, File Writer API, File System API, Indexed Database API, WebSQL API
- Personal Information Management
  - **Contacts API**, **Calendar API**
- Sensors and hardware integration
  - Geolocation API, DeviceOrientation Event, Battery Status API, **System Information API**
- Network
  - XHR, Cross-Origin Resource Sharing, Server-Sent Events, WebSocket API, **Network Information API**
- Communication
  - **Messaging API**, HTML5 Web Messaging, **Web Intents**
- Performance & Optimization
  - **Navigation Timing**, **Resource timing**, Page visibility API, Web Workers

# Advanced HTML5 features

- WebRTC(Web Real-Time Communication)
  - Provides video conferencing feature base on the P2P
  - Core features consist of getUserMedia, Media Stream and P2P

# Advanced HTML5 features

- getUserMedia feature of Tizen Web Platform
  - Face detection and recognition, Bar code recognition, AR, and etc

⟨ 3D Ping Pong Game ⟩

⟨Source: <http://updates.html5rocks.com/2012/04/WebRTC-Protothon>⟩

⟨ You So Pretty ⟩

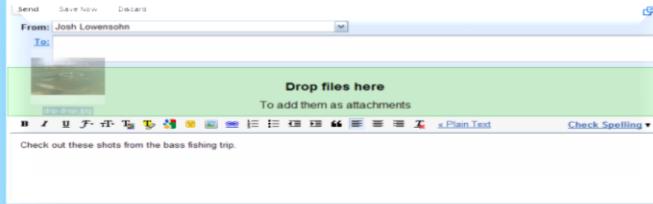

- getUserMedia + record feature of Tizen Web Platform
  - TalkingTom, Voice/Video recording, and etc

# Demos in Tizen Web Platform

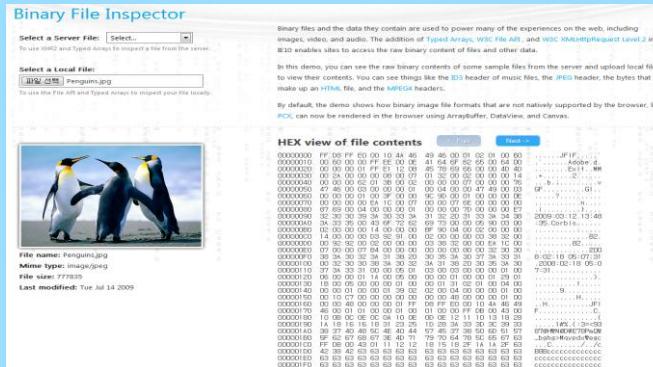

- record API demo of WebRTC
- P2P demo of WebRTC

# Advanced HTML5 features

- File APIs (File Reader, Writer, Directories and System)

⟨ File drag and drop in mail web app ⟩

⟨ File analysis or reading metadata⟩

⟨ Saving a file in image editor web app ⟩

# Advanced HTML5 features

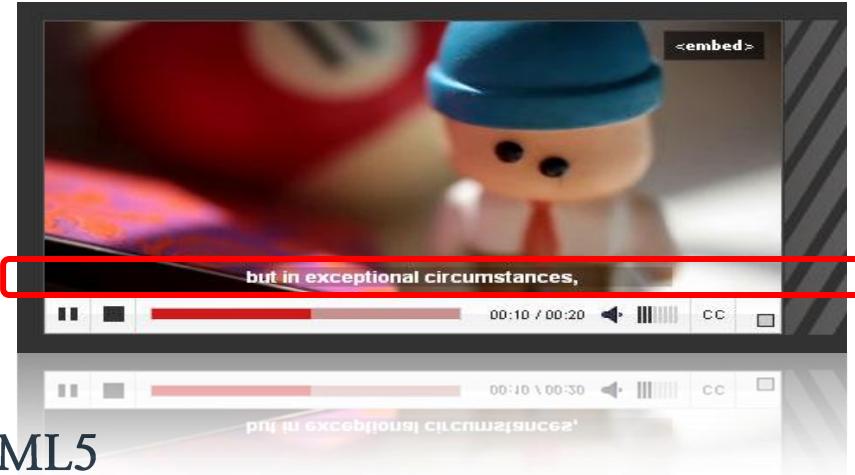

- Device APIs
  - Vibration API
    - As a notification in a game or other use case
  - Battery Status API
    - Web-based email client
  - Network Info
    - Adaptive streaming web apps

# Upcoming HTML5 features for Tizen Web Platform

# HTML5TEST.COM compatibility

- HTML5 Video <track>
  - Supporting subtitle, caption, extra
- HTML5 Microdata
  - Supporting semantic annotation in HTML5
- HTML5 Forms
  - Supporting advanced form features

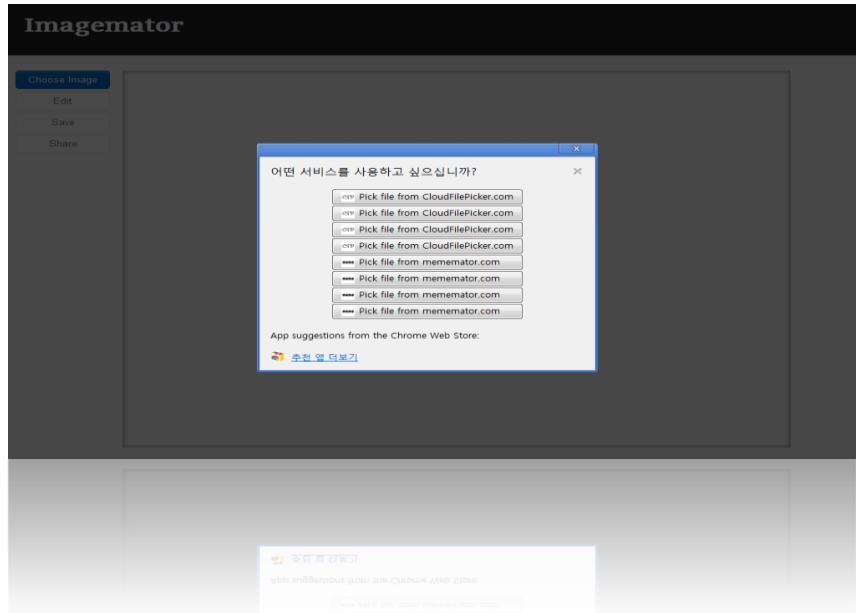

# Ringmark compatibility

- W3C Core Mobile Web Platform CG(Community Group)
- Ringmark test suites
  - R0 has passed, but R1 had 20 fails

# Web Intents

- Web Intents
  - is a framework for client-side service discovery and inter-application communication

# Other features

- HTML Media Capture
  - supporting a capture attribute for launching camera native app
- Screen orientation lock
  - For HTML5 game app

**TIZEN**™ DEVELOPER  
CONFERENCE  
MAY 7-9, 2012
